EDUCATION

Carnegie Mellon University | Pittsburgh, PA

B.S. Electrical and Computer Engineering | May 2028

GPA: 3.9/4.0

The Hotchkiss School | Lakeville, CT

High School Diploma | May 2024 | GPA 3.9/4.0

PROJECT EXPERIENCE

Quadrupedal Climbing via Reinforcement Learning | May 2024 - Present

- Developed a RL environment in Isaac Lab to train a quadrupedal robot to climb hilly terrain
- Deployed the policy on a Unitree Go2 quadrupedal robot

Robotic Arm | Personal Project | June 2024 - Present

- Built a 6-degree-of-freedom robotic arm from scratch using 3D printed parts
- Simulated the robotic arm with Isaac Sim
- Wrote a kinematics library to control the arm using C++ and ROS2

Drawing Robot | Personal Project | Sep 2024 - April 2024

- Constructed a robot that draws on walls using 3D printed parts, stepper motors, and a servo motor
- Coded an program that enables the robot to reproduce digital images on walls

WORK EXPERIENCE

Robomechanics Lab | Researcher | Carnegie Mellon University | May 2025 - Dec 2025

- Working on a reinforcement learning controller for a robotic quadruped to climb steep cliffs

Bio-Robotics Lab | Intern | Chinese University of Hong Kong | June - September 2023

- Manufactured a prosthetic for an arm amputee, allowing her to play the violin
- Built 6 iterations of the prosthetic until it was lighter than 100g and comfortable to wear

SKILLS

Software: Isaac Lab, Isaac Sim, Pytorch, ROS 2, Python, C++, C

Hardware: Onshape, Solidworks, Arduino Prototyping, 3D Printing, Laser Cutting

NOTABLE CLASSES

- 11-485 Introduction to Deep Learning
- 15-122 Principles of Imperative Computation
- 18-290 Signals and Systems

LEADERSHIP EXPERIENCE

Hotchkiss Robotics Team (FIRST) | Captain, Mechanical Designer | 2021 - 2024

- Competed in the world championship
- Oversaw hardware, software, outreach, and logistical projects
- Created a mechanical subsystem for the robot using CAD, 3D printing, and laser cutting

Engineering Teacher | 2022-2024

- Created a robotics class taught to 100 kids at 4 different elementary schools
- Taught a 6 week course on building a model city. 25 kids enrolled

Maker's Club | Founder and Head | 2022-2024

- Provided mentorship in the makerspace and organized engineering competitions

Computer Science Club | Head | 2022-2024

- Held coding workshops, discussions on CS related topics, and coding competitions

The St. Baldrick's Foundation | Event Organizer | 2018 - 2024

- Organized yearly fundraiser at school for childhood cancer research. Raised \$30,000
